Summary — About

Fifteen years sourcing products across Asia and the US taught me what real importers need. A decade in product management at Gannett/LocaliQ, Sunrise, MEDL, and earlier roles taught me how to ship.

Now I combine both — founding Aleph Co. to build compliance tooling for the sourcers I used to be, while shipping six other products in parallel because the operator problems I know best aren't confined to one market.

MBA from USC Marshall (2012), CSPO, and a lifetime food blog at The Thirsty Pig. Based in Los Angeles.
